Orchid Review

CLINT MARBLE & SONS
1012 James River
Signal Hill, Tenn.

NOTICE

Look Magazine has recently done a short story on our orchid range. This story is on Page 36 of the June 10th. issue.

We are very fortunate in that the pictures they used are of some of our well known parent plants. For this reason, we thought our customers would appreciate having a copy of this issue and have arranged to have one sent to you by our firm, Southland News Co.

Unfortunately, the four pictures were not properly identified by the publisher. C. Bow Bells should have included the varietal name, Chattanooga, and happens to be the Bow Bells parent of our cross R-677 shown on this offering.

Laeliocattleya Windemere, var. Clovely, A.M., R.H.S. is correctly identified, and is the parent of many of our crosses, the most recent being R-568.

The bloom shown at the top of the right hand column is our Lc. Heliantha, var. Tennessee and is one of the parents of our cross R-804 that we will offer later in the year.

The bloom shown at the bottom of the right hand column is our Lc. Erato, var. Rivermont.

We hope you enjoy the pictures.

CLINT McDADE & SONS

NOTICE

Look Magazine has recently done a short story on our orchid range. This story in on Page 56 of the June 1941 issue.

We are very fortunate in that the pictures they used are of some of our well known parent plants. For this reason, we thought our customers would appreciate having a copy of this issue and have arranged to have one sent to you by our firm, Southland News Co.

Unfortunately, the four pictures were not properly identified by the publisher. C. How Bellis should have included the varietal name, Chattanooga, and happened to be the How Bellis parent of our cross R-877 shown on this offering.

Laeticostictis Windomere, var. Cloveley, A.M., R.H.S. is correctly identified, and is the parent of many of our crosses, the most recent being R-568.

The bloom shown at the top of the right hand column is our Jc. Heliantha, var. Tennessee and is one of the parents of our cross R-804 that we will offer later in the year.

The bloom shown at the bottom of the right hand column is our Jc. Erato, var. Riverton.

We hope you enjoy the pictures.
